Green Bank Star Quest Rules & Regulations

Due to the location of the Green Bank Star Quest at the National Radio Astronomy Observatory in Green Bank, West Virginia; the following restrictions apply while on the Green Bank site:

- **No two way radios such as; FRS, CB, Ham, etc...**
- **No electrical generators or microwave ovens.**
- **No cell phones, pagers, PDA's, Bluetooth enabled, or wireless devices allowed.**
- **No pets are allowed in or around NRAO buildings no exceptions! Animal waste must be properly disposed of. Violators will be asked to leave!**
- **No use of 4 wheelers, motorcycles, etc. in the observing field.**
- **No digital cameras allowed beyond the observing field.**
- **No open fires permitted. No white light in or near field. Red lights only during night observing.**
- **Vehicles with campers should detach their camper in the field and move to the upper parking lot so engine interference and vehicles moving in the dark are kept at a minimum.**
- **GBSQ sponsors will provide a charging station for batteries during the event.**
- **The use of green lasers for sky pointing and celestial orienteering will be permitted up till a certain hour, early in the evening. Red light rules will be enforced to accommodate imaging and observing in the field.**
- **The NRAO Interference Protection Group monitors for noise 24 hours a day and reserves the right to turn off ANY device that is causing interference to the observations.**
- **GBSQ reserves the right to add to and/or modify the rules at our discretion. GBSQ reserves the right to eject any person(s) from the event for any violation of the rules.**
